Swagger UI Screenshots

1. SIGNUP

The screenshot shows the Swagger UI for the `POST /api/signup` endpoint. The interface is displayed in a web browser at `localhost:8000/docs#/default/signup_api_signup_post`. The endpoint is labeled **POST** and `/api/signup` with the title `Signup`. A `Try it out` button is visible in the top right corner of the endpoint details.

Parameters: No parameters are defined for this endpoint.

Request body: Required. The media type is set to `application/json`.

Example Value: The schema defines the following fields: `username` (string), `password` (string), `role` (patient), `full_name` (string), `email` (string), and `phone` (string). The example value is a JSON object:

```
{  "username": "string",  "password": "string",  "role": "patient",  "full_name": "string",  "email": "string",  "phone": "string"}
```
